A fashionable wedding took place in the Channing Memorial Church, Newport, on Wednesday. The principals were Miss Ella Kingsbury Stedman, dangliter of Colonel and Mrs. William A. Stedman, and Marion McAllister smith, son of Colonel and Mrs. Howard Smith. A large and fashionable congregation witnessed the ecremony and afterward attended the reception, which was held at the home of the bridegnoom's parents, in Mount Vernonst., where Pinard served supper. The bride wore a gown of white faille, garnitured with embroidered silk muslin, and a tulle veil, fastened with a diamond feur-de-lis, a gitt from the bridegroom. Miss Annie Newton Stevens, the only maid of honor, was attired in embroidered silk muslin over yellow silk, and carried a bouquet of marguerites. Mr. and Mrs. Smith are now in town, but will return to Newport, and leave there on the 28th inst. for Tacoma, where they will live.

The tide of transatiantic travel has begun to turn, and, although the departures for Europe continue numerous, yet society people are arriving by every steamer. Mr. and Mrs. William C. Whitney and Mr. and Mrs. Cornelius Vanderbilt are expected to arrive shortly, and both families will go immediately to their places at Newport, which is in the flower of all its loveliness and where there is just now much quiet entertaining being done among the cottagers. Mr. and Mrs. Herman T. Livingston, of Washington Square, are expected there next week, to take possession of their cottage on the Cliffs overlooking the beach. Seth Barton French. of West Fifty first.st., has already arrived at the Chandler villa, on the Cliffs, where he will have as guests for a fortnight in August John King, president of the Eric Railrond, and Louis Mesier, two of the best whist-players probably in the country. A DECREE BY JUDGE WOODS, OF INDIANA.

Indianapolis, June 21 (Special).-Judge Woods, of the United States District Court, to-day issued a decree in the case of the Central Trust Company of New-York against the Toledo, Delphi and Bloomington, and Toledo, Cincinnati and St. Louis railroads and others. In this decree the court allowed five montus' interest on the sums allowed by the Supreme Court decree of April 5, 1ec5, and remodelled its own former decree in obedience to the mandates of the Supreme Court, which cut off all allowances of the Dwight receiver-ship, and allowed car and equipment rental under the Craig and McNulta receiverships.

THE HENDRICKS MONUMENT UNVEILING.

Indianapolis, June 21.-The indications are that there will be an immense gathering in this city on the oc casion of unveiling the Hendricks monument, July 1. Governor Campbell and Senator Brice have signified their intention to be present, and Governor Hill has ent the following letter of acceptance:

Hon. John A. Holman, Secretary.

I have delayed acknowledging the committee's invitation o attend the exercises at the unveiling of the Hendricks monument, fearing that official duties would prevent my caving the State at that time. I find now, however, that these can be arranged so as to permit me to leave Albany for a few days, and I consider it a pleasure no less than a duty to take advantage of this opportunity of showing respect for the late Vice-President and my appreciation of his dis-tinguished public services. Will you convey to the com-mittee my acceptance of their kind invitation!

A Chicago lewyer who recently returned from a voyage across the Atlantic tells this:

"One of the voyagers back was a young man from one of the universities of England. He was the most thorougaly book posted young man I ever saw. And he knew his own country as well. He was a delightful companion so long as he confined himself to his books and his country. But about everything else he was so remarkably verdant that he was as interesting in his talk about things he didn't know as he was in his conversations about those which he did know. As we nearred New York Harbor there was the usual anxiety on the part of Americans on board and the usual curiosity on the part of those who were coming over for the first time. I was walking the deck one morning waiting to get a glimpse of my own country. The young leiten joined me, and in the most serious manner said:

ONE WOMAN'S IDEA OF MONEY.

From The St. Louis Republic.

What is money anyhow? It's desirable only because it will get you whatever you want.

It will buy a banch of red roses that will make Jennis smile and give you a kiss for them.

It will give you hours of untold happiness when it is used to buy a delightful story book.

It will get a lovely frock and make the woman you love as pretty as a picture.

It will also get you the picture if you want it.

It will permit you to hear beautiful music and see fine acting.

it will, in many cases, make well the sick and bring

It will, in many cases, make well the set of loy to those who have it not. It will build asylums for little orphans, homes for old people and hospitals for those who are crippled. It will care for the bables who have no one to care for them and make them good, strong, healthy citizens. It will build temples to honor God and where man may say a prayer.

It will do all this, but after all it will be of little worth, unless it brings two pleasures, to the bayer and the seller. Money, next to love, is the best thing in this world to have, and when you get it just remember this world to have, and when you get it just remember this world to have, and when you get it just remember this world to have, and when you well to live the seller.

There are few things more necessary to man's comfort than barbers, and yet there so many annoyances to be found in barber-shops that every one looks forward to his shave with a resignation which borders almost on despair. Now, in this business, as in all others, there are secrets. Those who know them are the gainers by their knowledge Those who do not, pay for the information which the rhose who do not, pay for the information which the others have been fortunate enough to acquire. Every one who frequents barber-shops, however often, however seldom, must have noticed that when he enters a barber-shop nine times out of ten there is a wild rush for him. He may be a stranger, he may be well known, but unpopular with his shavers, but they are as eager to shave him as if they were in high favor with the "hoi polioi" (this should be governed by the with, but in England it never is). The reason for this is easily explained, when one has once solved the problem.

Their share of the money work on commission. which passes through their hands is usually 30 per This is why every barber, who works under these circumstances, has so keen an interest in securing customers. This is why your hair is always full of dandruff, why it needs cutting, why a cer tain hair invigorator will prevent baidness, or, if you are baid, restore a flourishing growth on your head. This is also why you are told, one hour after washing your hair thoroughly, that you need a shampoo. If you follow the advice of your barber in any of these cases you "put money in his purse." And hereby hangs several fales.

In the first place, a man goes into a barber-shop. No one shows any alacrity to cut his hair, to shave him or to trim his mustache. That is a shop where the men receive weekly salaries. But in this particular establishment, strange to the visitor, is one "tonsorial artist" who knows him. The visitor falls to his lot naturally. Your hair, sir" says the barber, "ought to be cut. It will soon be so long that when I do put my scissors to it, it will be difficult to make a good job of it." This is said in a loud tone. Again: "A shampoo we have a hair invigorator (never restorer, mind you) we have a hair invigorator (never restorer, mind you) which will insure you against the possibility of any such trouble." This last is said in so loud a voice that every one can hear it. The proprietor smiles. But the friendly barber whispers in the customer's car. "Your hair does not need cutting. I see that you have just had a shampoo, and if you live until you are a hundred years old you will never be hald. I am a salaried barber, and this is all for the benefit of the proprietor of the shop." This man would have made a commission had he been working on that system. In this case he gets a tip. What does he care!

While you are waiting for "your turn," watch each Those of no two men three enthusiastic barbers. go to the chair of one. There is nothing which can go to the chair of one. There is nothing which can be supplied in that shop which you do not require. But compromise on a shave and a shampoo. You intended to get shaved anyway, so do not count that. Your shampoo, perhaps, would cost 35 cents (near Twenty-third-st). The commission on that would be about ten cents. Slip fifteen cents into the barber's hand and ask him if he thinks that you need a shampoo. The commission is ten cents. The "tip" is fifteen. He will tell you with a wise wink that you do not need a shampoo.

chair. And here is a story told of a man who knew all these tricks, and in fact was on intimate terms aggretion he assented with a quietness and meekness I feel better after he had his hair singed! That true. His face was rough and was in need of a lexion-softener! Well, he supposed so. And so not on. The man in the chair received a shave he of which was never heard of in a barber-shop, he suddenly arose. Two packages were tied up whose of the late Clark S. (Translated from the Japanese.)
The Toklo El Wa Gokko has recently placed the Rundy Steam Radiator in one of their large buildings, and it is with pleasure that I speak of its great merit

as a heater.

We believe it to be just the thing for heating large buildings in Northern Japan. The simplicity of its construction, and the fact that they are so extensively used throughout the United States, should recommend it to builders in this country.
